

history

The BCPVPA was, for many years, a Provincial Specialist Association (PSA) of the BCTF. In January, 1988 the BCPVPA became an autonomous professional association dedicated to helping principals and vice-principals provide “quality leadership in education.”

The first 15 years of the Association have been marked by significant challenges and achievements — from recovering a fair share of the assets paid into the BCTF by principals and vice-principals to ensuring that principals and vice-principals have satisfactory employment contracts.

The BCPVPA has developed and presented programs to meet the professional needs of B.C.’s educational leaders and has been an effective advocate for public education.

The challenges continue and the benefits of membership grow.

Statement *Education*

we are

Principals and vice-principals who join the Association today have access to a wealth of knowledge and services, become part of an active and respected network that includes more than 92% of BC’s public school principals and vice-principals and share in the accolades afforded a group that nurtures, honours and celebrates BC’s student achievement, recognizes valued community partners and facilitates positive change to benefit all students.

**At the end of the day,
the BCPVPA is viewed as
the best source of information,
an advocate for students,
a champion of public education
and a formidable voice for
its individual members.**

we do

The BCPVPA works in a respectful, consistent and determined way, in co-operation with our education partners, to influence government education policies.

We engage our members
in the development of our positions
and the advice we give.

We communicate effectively
with members.

We tell our stories
to describe the critical nature of our roles
and the challenges we face.

We share these with the government,
partner groups,
community leaders and the media.

We advocate for our members
and for public education with the
conviction that the BCPVPA is the most
credible voice in education in the province.

We involve principals and vice-principals
in the development of
public education policy.

nine
good reasons
to join the
BCPVPA

a credible public voice

stimulating, relevant
professional development

active member involvement

counselling & legal advice

contract advice

effective communications

- Adminfo, a magazine
- eNews, a weekly eletter
